

StallPOS.

SINGAPORE F&B SOFTWARE

Less chaos. More cooking.

POS • QR ordering • kitchen tickets • daily sales

Built at our own noodle stall.
Designed for the busy hours in yours.

[Explore live demo ↗](#)

PRODUCT ILLUSTRATION

A busy service leaves no room for extra steps.

Three familiar moments where small stalls lose time.

01

Orders repeated

Special requests are passed from one person to another.

02

Kitchen guesswork

Verbal calls, missing tickets and unclear priorities.

03

Closing the day

Cash, PayNow and total sales have to be reconciled.

The goal is simple: enter an order once, then keep it moving.

Our first customer was our own stall.

StallPOS started inside 4 MEE, our Singapore bak chor mee stall. It was built around the real ordering and kitchen workflow we use daily.

Running at 4 MEE since September 2026

4 MEE

**ONE NOODLE STALL.
A VERY REAL TEST.**

1 Customer orders

QR or counter

2 Kitchen prepares

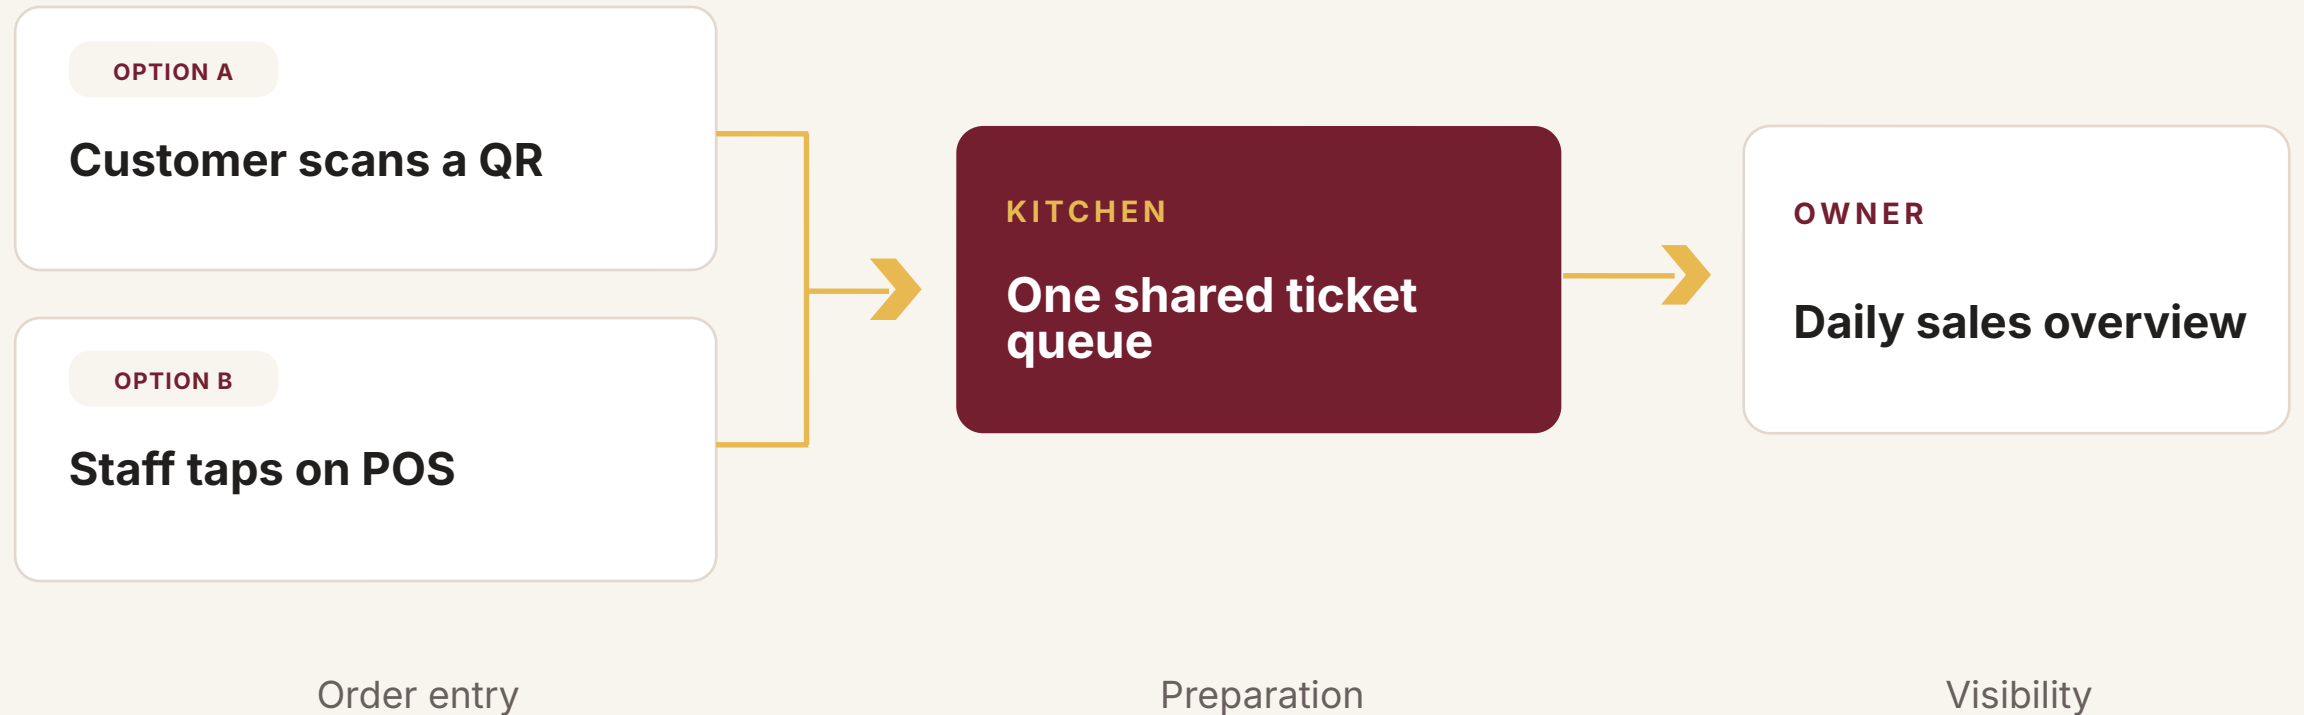

Clear digital ticket

3 Owner checks

Sales at a glance

Two ways in. One clear flow.

A QR order or a walk-in order reaches the same kitchen workflow.

ILLUSTRATIVE PRODUCT VISUAL

Scan. Choose. Send the order.

QR ordering / 扫码点餐

No app to install

Customers order from their own phones.

Your menu, clearly shown

Dish photos, options and special requests.

Straight to the workflow

Orders flow into kitchen preparation.

[Explore QR ordering ↗](#)

Walk-in orders, without the fuss.

Cashier POS / 收银台

Tap a dish

Choose portions, styles and add-ons.

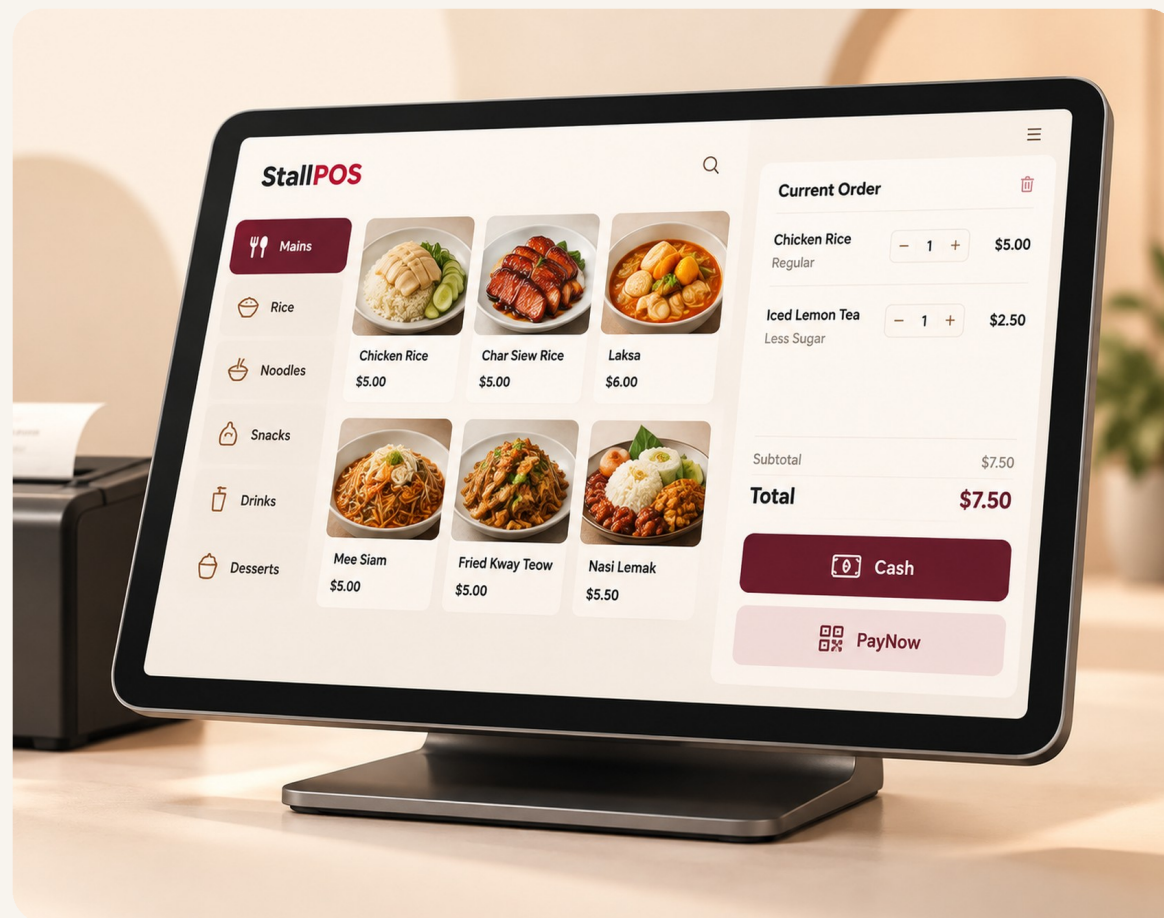

See the amount

Clear running total with cash or PayNow.

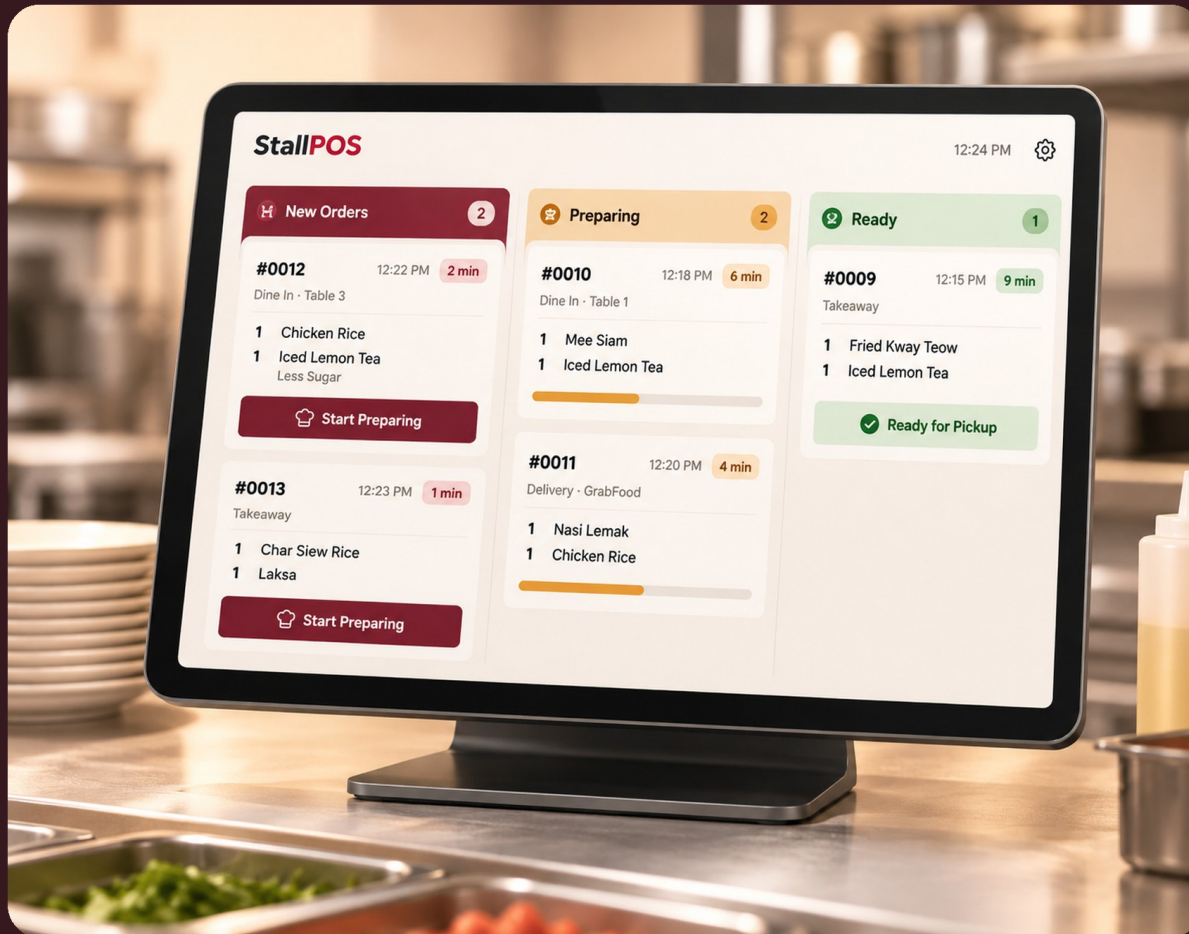

Keep the kitchen in sync

No need to rewrite an order.

[Open cashier demo ↗](#)

COMMERCIAL CASHIER: FINAL TESTING

ILLUSTRATIVE PRODUCT VISUAL

Make every ticket visible.

Kitchen display / 厨房屏

Know what to prepare

Dish details and special requests together.

See order status

New, preparing and ready, clearly organised.

Hear the alert

Voice cues at our own stall for new activity.

[Try kitchen demo ↗](#)

Close the day with clarity.

Business dashboard / 老板数据

Sales summary

See orders and the day's totals.

Cash versus PayNow

Understand your payment mix.

What customers liked

See popular items at a glance.

[Open owner dashboard ↗](#)

ILLUSTRATIVE NUMBERS

Your customer pays you. Not a middleman.

StallPOS handles the order workflow. Your PayNow QR points to your bank account.

01

CUSTOMER

Scans & pays

02

YOUR BANK

Receives the money

03

YOUR STALL

Checks & serves

0% StallPOS commission on PayNow. Bank fees, if any, are separate.

Commercial stalls confirm PayNow manually today. Automatic email confirmation is used at our stall but is not generally released.

Designed for a stall, not a giant rollout.

01

Use your device

No compulsory proprietary terminal.
Compatible Android works.

02

Build the menu first

Photos, prices and choices, in English or Chinese.

03

Speak to the developer

Menu setup help and a direct WhatsApp contact.

What is not included today

Card payments
Delivery-platform sync
Printed receipts or loyalty

We would rather be clear than oversell.

Start free. Pay when you stay.

ONE SIMPLE STALL PLAN

S\$58

per stall / month · 每摊位每月

No setup fee • Month-to-month • No auto-charge

01 Build your menu

Free, with no time limit.

02 Go live for 30 days

Real orders, S\$0 trial.

03 Decide whether to stay

S\$58/mo only if you continue.

[Build your menu free ↗](#)

See the system. Try your own menu.

The demos are open. No salesperson required.
Or WhatsApp us and we will show you how it works.
